

# Surgical Consent Form

*(For Spaying, Neutering and Declawing)*

Owner's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Owner's Address: \_\_\_\_\_

Pet's Name: \_\_\_\_\_ Dog: \_\_\_\_\_ Cat: \_\_\_\_\_ Male: \_\_\_\_\_ Female: \_\_\_\_\_

Breed: \_\_\_\_\_ Age: \_\_\_\_\_ Color/Description: \_\_\_\_\_

Phone number(s) Primary: (\_\_\_\_) \_\_\_\_\_ Emergency Only: (\_\_\_\_) \_\_\_\_\_

**\*Please *initial* to authorize the following procedure(s):**

**Spay (Females) \_\_\_\_\_ Neuter (Males) \_\_\_\_\_ Declaw (Cats) \_\_\_\_\_**

I understand that anesthesia will be used and that with anesthesia there is always a risk, although minimal, of an allergic reaction or even death of the animal. A brief pre-surgical exam will be done on all animals to assess health for surgery risk. Any animals found to have a condition that increases the risks of the anesthesia will not be operated on until the owner has been advised of the risks. Any female dog found to be in heat will be refused. The nature of the surgery to be performed has been explained to me satisfactorily. I understand that I assume financial responsibility for all services rendered, and that payment will be expected when the animal is picked up from their surgery.

**Pre-Surgical Bloodwork:** These four blood tests help evaluate: *kidney function, red blood cell level, blood protein, and blood sugar.* Having these four tests done today, prior to surgery, helps our doctor determine anesthesia risk and make the appropriate decisions regarding your pet's health while they are with us.

*\*The cost for pre-surgical bloodwork is \$15.50*

I want the bloodwork: \_\_\_\_\_ I **DECLINE** the bloodwork: \_\_\_\_\_

Signature of owner or agent \_\_\_\_\_ Date: \_\_\_\_\_

*These additional services can be performed on your pet at the same time as your pet's surgery. All of these services are RECOMMENDED, but not required for the continued health of your pet.*
